

About NAB - Vision, Mission and Organizational Structure

NAB's vision is: 'A corruption-free Pakistan through the rule of accountability.' Its mission is to eliminate corruption through a holistic approach combining public awareness, systemic prevention, and effective enforcement of accountability law.

NAB pursues a three-pronged strategy of Awareness, Prevention, and Enforcement. Awareness focuses on educating citizens and youth about the costs of corruption; Prevention focuses on identifying and fixing systemic weaknesses in government departments that create opportunities for corruption; Enforcement covers investigation and prosecution of corruption references.

NAB's organizational structure is headed by the Chairman NAB, supported by a Deputy Chairman, a Prosecutor General Accountability who leads the prosecution wing, and Director Generals who each head a Regional Bureau. Specialized wings support forensic audit, international cooperation, and asset recovery functions.

NAB works closely with international bodies on matters of asset recovery and mutual legal assistance, and periodically publishes annual reports summarizing its performance, recoveries, and awareness activities for public and parliamentary review.
