

NAB Achievements and Annual Performance Summary

Since its inception, NAB reports having recovered more than Rs. 900 billion in looted public money, which has been deposited into the national exchequer of Pakistan. These recoveries include cash, property, and other assets recovered through plea-bargain and voluntary-return arrangements as well as court verdicts.

NAB conducts anti-corruption awareness seminars, walks, and essay/declamation competitions in schools, colleges, and universities across the country under its Character Building Societies (CBS) program, which aims to instill anti-corruption values in the youth from an early age.

NAB's conviction rate in Accountability Courts has averaged around 65 to 70 percent over recent reporting years, reflecting the Prosecution Department's litigation of references referred by the Operations Department.

NAB operates through Regional Bureaus located in Punjab, Sindh, Khyber Pakhtunkhwa, Balochistan, and Islamabad, each headed by a Director General responsible for investigations and complaint handling within that region.
